Dear Nick,

Cutting Service for Strut & Studding

Just a short note to thank you for the excellent service provided over the past two weeks to our projects. You & your team have somehow managed to supply over 4000 cut lengths of material without one delivery date being missed. This would have taken a herculean effort by your prefabrication department & we have been very impressed with R&M throughout. I have also had positive feedback from site operatives on the consistent quality of product supplied.

Can you please pass on my thanks & congratulations to everyone involved at R&M.

Yours Sincerely,

Andrew Cummins
Chief Buyer

HVCA
